

Hello and Welcome to the Crazy, Colorful and Modular

# Epic Storybook Princesses!

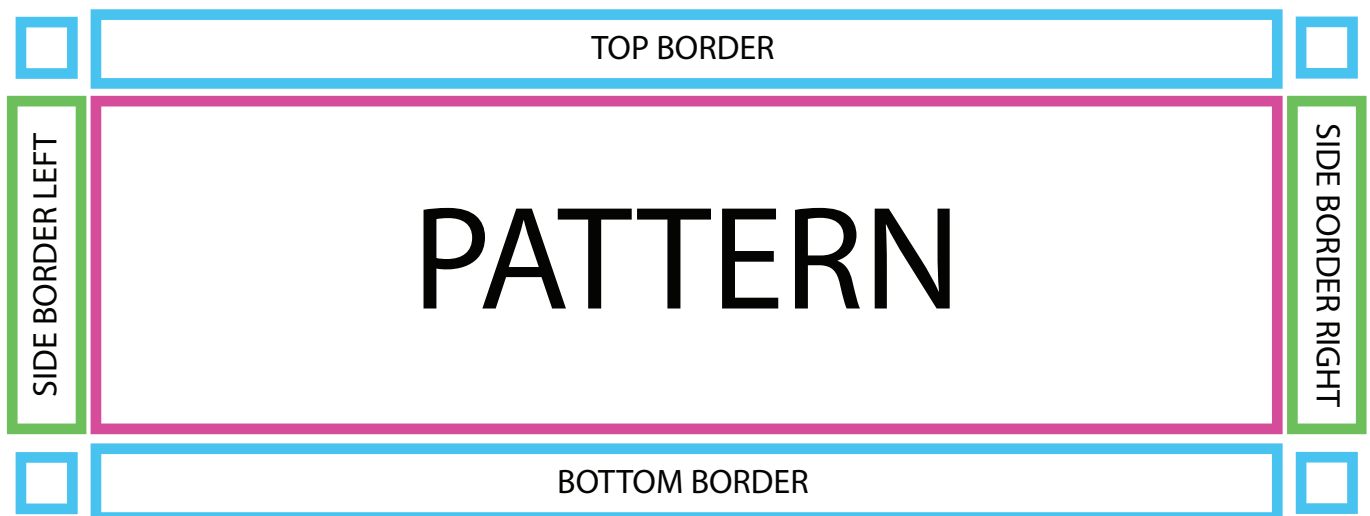

This pattern has been designed to be modular. This means that you will be able to swap, move and rearrange the patterns however you prefer!!

You can find all the different options, patterns and frames on  
[www.cloudsfactory.net](http://www.cloudsfactory.net)

**Products > Cross Stitch Patterns > Epic Storybook Princesses**

Every pattern is composed by the following sections, marked with lines of different color:

- **pink line:** the pattern itself, the part that includes all the characters
- **green line:** the side borders
- **light blue line:** top and bottom borders

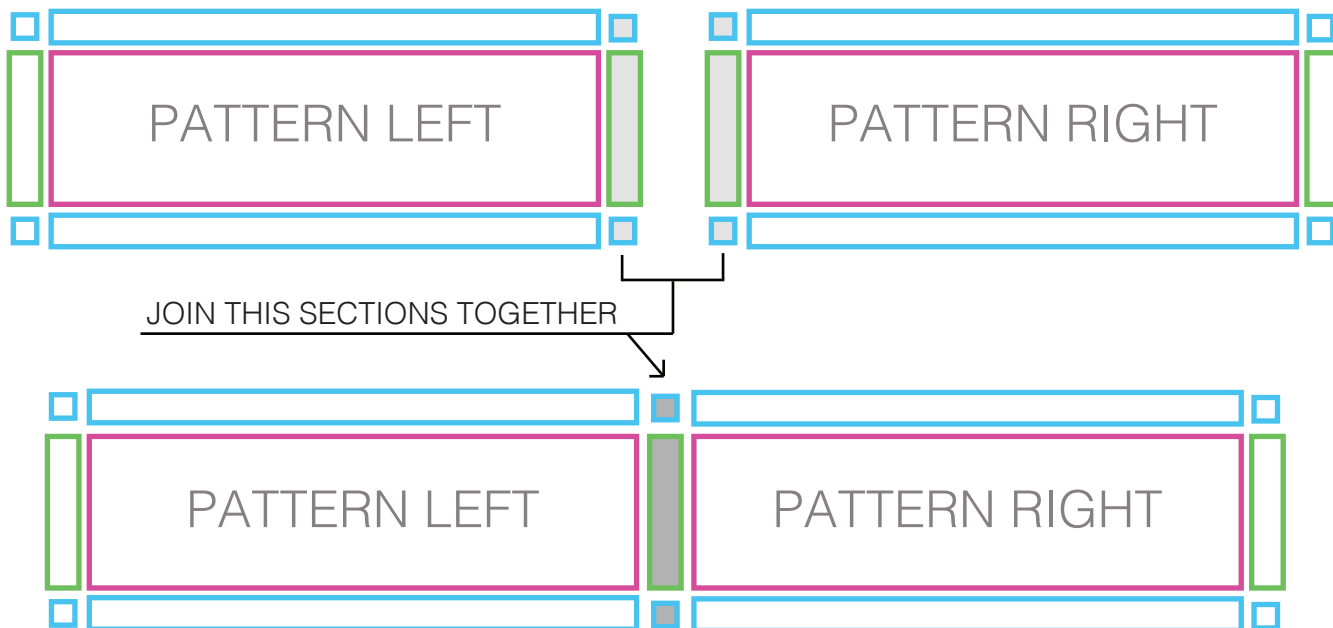

The sections are marked in the **same way** and are **exactly the same size** in every PDF, so, once printed, every section can be **cut and glued** wherever you prefer!

Using the colored lines as a guide, you will be able to align, join or swap the different patterns, sections or columns together.

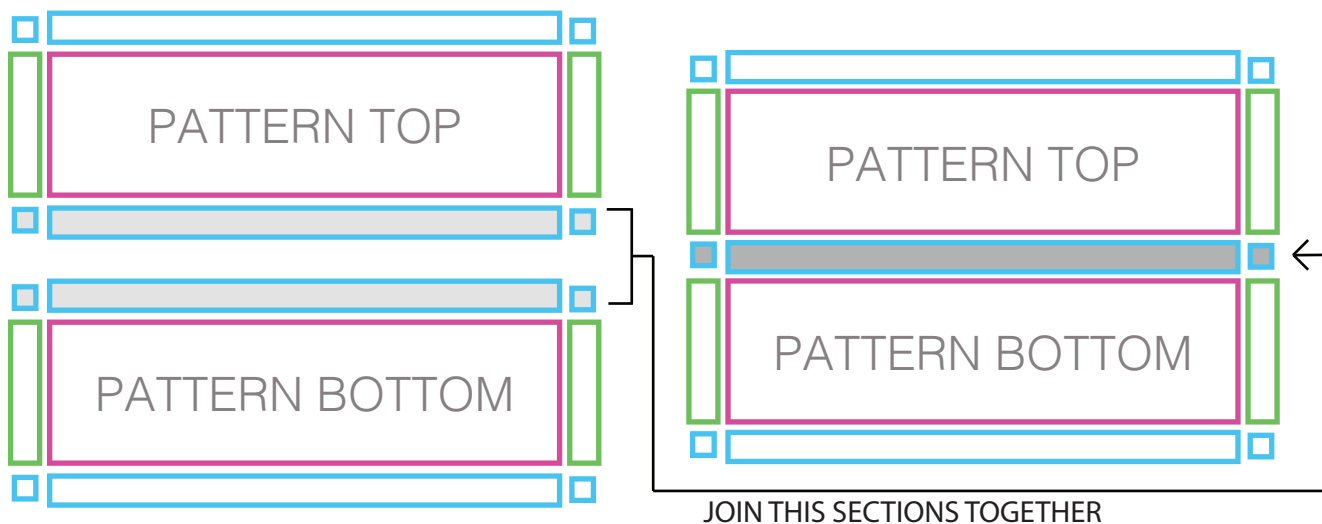

**Please note:** we did our best to make the modular pattern as easy as possible to use, however we had to deal with the necessity of a well-readable printed pattern, the different international paper sizes and the layout problems. If you want to use the "cut-glue-and-stitch" option, some patterns will require just a couple of cuts, some will need more, but believe us, it is simpler than you think!

Please be patient and enjoy!
